

PRODUCT GUIDE Architectural Paving Systems

## Company Profile

Our comprehensive training packages are available for all our systems and are tailored to suit every type of business, regardless of size and include both theory and practical on-site installations.

The PICS range of paving and walling systems are widely specified by Commercial Clients, Architects and Landscape Designers both here in the UK and overseas. In addition, the general public are served through our large network of established quality installers and depots.

From our head office in Newbury, we design and distribute our own manufactured products across the UK. Our depots in Newbury, Sheffield and Manchester provide invaluable support and availability of products stocked locally for collection or delivery.
