Technical Data - Rhino Grip

13/11/2025

www.picsuk.com

PRODUCT DESCRIPTION

Rhino Grip is a finely ground and carefully graded micronised polyethylene which when added to PICS sealers will noticeably improve the slip resistance value of all concrete surfaces.

PURPOSE

Rhino Grip is used to increase the slip resistance value on concrete surfaces. Typically used on inclined driveways, pathways, steps, patios and swimming pool surrounds.

SPECIAL PROPERTIES

- Guaranteed increase in slip resistance value
- Cost effective
- Careful grading ensures even distribution
- No dangerous sharp edges
- Translucent when applied
- Can be used when resealing

APPLICATION INSTRUCTIONS

Add the contents of the container to 25 litres of PICS High Solid Sealer and mix well. Ensure the **Rhino Grip** is evenly dispersed through the 25 litres of High Solid Sealer. Apply to the clean dry surface using a natural fibre brush. Agitate every regularly to avoid settlement.

For use with PICS Low Solid Sealer, a second spray applied application (without **Rhino Grip**) may be required depending on porosity of the surface.

PACKAGING

0.5kg plastic tub

STORAGE

Store in dry.

COVERAGE

1 tub per 25 litres.

TECHNICAL & TEST DATA

Storage: Indefinite
Water Solubility: Insoluble
Xylene Solubility: Insoluble
Odour: None
Biological Resistance: Good/Non Biodegradable

HEALTH AND SAFETY

Rhino Grip is non toxic. Do not take internally. Avoid contact with eyes. Flush effected areas with water. Refer to the Safety Data Sheet for further information.

As this product is intended for use with either High or Low Solid Sealer please also consult the appropriate sealer Safety Data Sheet.
